SOVIET MATHEMATICS — DOKLADY

ANNUAL INDEX OF AUTHORS

Volume 36-37 January-December 1988 Russian Toms 295–300

Abgaryan, K. A. *On the problem of reducibility of linear systems* 37 632

Abrosimov, A. V. *On locally biholomorphic equivalence of smooth hypersurfaces in C^2* 37 434

Afendikov, A. L. and Babenko, K. I. *Bifurcation of cycle generation in some problems with symmetry* 37 600

Ageev, V. M. See Petrov, V. V.

Agrachev, A. A. *Homology of intersections of real quadrics* 37 493

Agrachev, A. A. and Gamkrelidze, R. V. *Computation of the Euler characteristic of intersections of real quadrics* 37 297

Agrachev, A. A. and Sarychev, A. V. *Filtrations of a Lie algebra of vector fields and nilpotent approximation of controlled systems* 36 104

Aĭzenberg, L. A. and Tarkhanov, N. N. *An abstract Carleman formula* 37 235

Akhatov, I. Sh., Gazizov, R. K., and Ibragimov, N. Kh. *Bäcklund transformations and nonlocal symmetries* 36 393

Akilov, G. P., Kolesnikov, E. V., and Kusraev, A. G. *Lebesgue extension of a positive operator* 37 88

Alekseevskaya, T. V., Gel'fand, I. M., and Zelevinskiĭ, A. V. *An arrangement of real hyperplanes and the partition function connected with it* 36 589

Alekseevskiĭ, D. V. *Maximally homogeneous G-structures and filtered Lie algebras* 37 381

Alidema, R. I. *On global stability of coupled pendulums* 36 437

Aliev, A. B. *Global solvability of one-sided problems for quasilinear operators of hyperbolic type* 37 176

———. *Unilateral problems for quasilinear hyperbolic operators in function spaces* 36 443

Aliev, F. A. See Maksudov, F. G.

Aliev, R. A. and Tserkovnyĭ, A. È. *Knowledge representation in intelligent robots on the basis of fuzzy sets* 37 541

Aliev, Z. S. See Makhmudov, A. P.

Allakhverdiev, Dzh. È. and Dzhabarzade, R. M. *A multiparameter system of operators that depends nonlinearly on the spectral parameter* 37 538

———. *Abstract separation of variables* 37 636

———. *On the spectrum of a multiparameter system, and a spectral theorem* 37 597

Almamedov, M. S. *On the spectrum of a linear integrodifferential operator of fourth order* 37 385

Alymkulov, K. *Generation of a periodic solution from a loop of a saddle-point separatrix in singularly perturbed systems* 36 142

Amirov, A. Kh. *A class of inverse problems for a special kinetic equation* .. 36 35

Amosov, A. A. See Zlotnik, A. A.

Amosov, A. A. and Zlotnik, A. A. *A family of difference schemes for the equations of one-dimensional magnetogasdynamics: Properties and global error estimates* 37 545
Andrunakievich, V. A. and Ryabukhin, Yu. M. *Primitivity and quasiregularity relative to right ideals of a ring* 36 305
Anikonov, D. S. *Examples of nonuniqueness of the solution of a problem in integral geometry* 37 301
Anikonov, Yu. E. and Bubnov, B. A. *Existence and uniqueness of a solution to an inverse problem for a parabolic equation* 37 130
———. *Inverse problems of transport theory* 37 497
Antonets, M. A. *On a representation of a solution of the wave equation in the form of a path integral* 37 1
Arkhangel'skiĭ, A. V. *Continuous images of Lindelöf Σ-groups* 36 169
Arkhipov, G. I. and Karatsuba, A. A. *A multidimensional analogue of Waring's problem* 36 75
Artemov, S. N. and Dzhaparidze, G. K. *On effective predicate logics of provability* 36 478
Asarin, E. A. *On some properties of finite objects random in an algorithmic sense* 36 109
Askhabov, S. N., Karapetyants, N. K., and Yakubov, A. Ya. *Discrete equations of convolution type with power nonlinearity* 36 273
Atakhodzhaev, M. A. *On dense solvability of an ill-posed problem for the biharmonic equation* 36 209
Avakov, E. R. *The maximum principle for abnormal optimal control problems* 37 231
Azamov, A. *Semistability and duality in the theory of the Pontryagin alternating integral* 37 355
Babenko, K. I. See Afendikov, A. L.
Babenko, V. F. *Approximation of function classes defined by means of a modulus of continuity* 37 239
Babin, A. V. and Vishik, M. I. *On the behavior as $t \to +\infty$ of solutions of nonlinear evolution equations depending on a parameter* 36 113
Baĭdosov, V. A. *Mappings adjoint to multivalued mappings, and their application to generalized dynamical games* 36 549
Baĭkuziev, K. B. *On a multidimensional system of equations of composite type with degeneration* 37 606
Bakaev, N. Yu. *Stability theory of difference schemes in arbitrary norms* ... 36 447
Bassalygo, L. A., Zinov'ev, V. A., and Litsyn, S. N. *A lower estimate of complete trigonometric sums in terms of multiple sums* 37 756
Belishev, M. I. *On an approach to multidimensional inverse problems for the wave equation* 36 481
Belov, V. V. and Dobrokhotov, S. Yu. *The Maslov canonical operator on isotropic manifolds with a complex germ, and its application to spectral problems* 37 180
Belykh, V. N. *Algorithms without saturation in axisymmetric boundary value problems* 36 146
Berenshteĭn, A. D. and Zelevinskiĭ, A. V. *Involutions on Gel'fand-Tsetlin schemes and multiplicities in skew GL_n-modules* 37 799
Bereznev, V. A., Zavriev, S. N., and Tret'yakov, A. A. *Interrelation of Lagrange's theorem with the geometry of feasible sets* 37 797
Berkun, V. B. See Kucherenko, V. V.

Bobenko, A. I. *Schottky uniformization and finite-gap integration* 36 38
Bobyleva, O. N. See Rvachev, V. L.
Bogachev, V. I. *Subspaces of differentiability of smooth measures on infinite-dimensional spaces* 37 304
Boglaev, Yu. P. *Construction by iterates of fundamental solutions of systems of linear ordinary differential equations in general position* 37 760
Bolotov, A. A. and Shaĭeb, A. *On metric classification algorithms* 36 485
Borovkov, A. A. *Asymptotic analysis of communication networks* 36 335
Bubnov, B. A. *An inverse problem for a parabolic equation, and the Cauchy problem for some classes of evolution equations in classes of functions of finite smoothness* 37 439
———. See Anikonov, Yu. E.
Budaev, V. D. *On the convergence of spectral expansions at a point of discontinuity of the coefficients of a linear nonselfadjoint differential operator of order 2m* 36 309
Bukhvalov, A. V. *Nonlinear majorization of linear operators* 37 4
Bulinskiĭ, A. V. *On various conditions for mixing and asymptotic normality of random fields* 37 443
Burago, D. Yu. *A new approach to the computation of the entropy of a geodesic flow and similar dynamical systems* 37 501
Burgin, M. S. *The arithmetical hierarchy and inductive Turing machines* 37 390
Burosh, G., Leont′ev, V. K., and Markosyan, A. S. *On the possibility of information propagation on graphs* 37 52
Busha, Ya. [Ján Buša], *On a method of regularizing the solution of systems of linear algebraic equations* 36 1
Charakhch′yan, A. A. See Ivanenko, S. A.
Chebotarev, A. M. *Approximately complete sets of the generalized Feynman measure* 37 46
Cherkasskiĭ, B. V. See Nesterov, Yu. E.
Chernousov, V. I. *On projective simplicity of algebraic groups which split over a quadratic extension of a number field* 36 388
Chernykh, S. I. See Maslov, V. P.
Chigogidze, A. Ch. *On compacta lying in the n-dimensional universal Menger compactum and having homeomorphic complements in it* 37 122
Chistyakov, Yu. E. See Kononenko, A. F.
Denis′evskiĭ, N. A. and Dorogovtsev, A. Ya. *On the law of large numbers for a linear process in Banach space* 36 47
Denisov, V. N. *On the stabilization of time means of the difference of solutions of the Cauchy problem for a hyperbolic equation* 36 399
———. *Stabilization of the solution of the Cauchy problem for the heat equation* 37 688
Derevnin, D. A. and Mednykh, A. D. *Geometric properties of discrete groups acting with fixed points in Lobachevsky space* 37 614
D′ëri [István Győri], I. and Pertsev, N. V. *On the stability of equilibrium states of functional-differential equations of retarded type having the mixed monotonicity property* 36 404
Derkach, V. A., Malamud, M. M., and Tsekanovskiĭ, È. R. *Sectorial extensions of a positive operator, and the characteristic function* 37 106
Derr, V. Ya. *On the definition of a solution of a linear differential equation with generalized functions in the coefficients* 37 56
Ditkin, V. A. *Integral representations in convolution spaces* 36 118

Dobrokhotov, S. Yu. See Belov, V. V.
Dolbilin, N. P., Sedrakyan, A. G., Shtan′ko, M. A., and Shtogrin, M. I. *A topology for the family of parametrizations of two-dimensional cycles arising in the three-dimensional Ising model*..... 36 11
Dol′nikov, V. L. *Generalized transversals of families of sets in R^n and connections between the Helly and Borsuk theorems*..... 36 519
Dorogovtsev, A. Ya. See Denis′evskiĭ, N. A.
Dranishnikov, A. N. *On the dimension of a product of* ANR*-compacta*..... 37 769
———. *The Bockstein inequalities in homological dimension theory*..... 37 505
Drinfel′d, V. G. *A new realization of Yangians and quantized affine algebras* 36 212
Dubinin, V. N. *Transformation of capacitors in space*..... 36 217
Dybin, V. B. *The Wiener-Hopf equation with vanishing symbol and the principle of limiting absorption*..... 37 813
Dzhabarzade, R. M. See Allakhverdiev, Dzh. È.
Dzhangibekov, G. *On the Noether property and the index of a class of two-dimensional singular integral equations with discontinuous coefficients.* 37 639
Dzhaparidze, G. K. See Artemov, S. N.
Dzhuraev, A. *An initial-boundary valve problem for the system* $a(x)u_{tt} = a(x)\text{grad div } a(x)u + \text{curl curl } u + b(x)u$..... 37 111
———. *On degenerate elliptic and mixed-type systems of first order in the plane*..... 37 191
———. *On some boundary value problems for second-order elliptic systems of mixed type in the plane*..... 37 152
Egorushkin, A. A. See Tikhonov, A. N.
Èĭdel′man, S. D. See Kushitskiĭ, Ya. S.
Emelichev, V. A. and Perepelitsa, V. A. *Multiobjective problems on the spanning trees of a graph*..... 37 114
Emgusheva, G. P. and Nogin, V. A. *Riesz derivatives with nonstandard cut-off and their application to the inversion and description of potentials commuting with dilations*..... 37 644
Eremenko, A. È. *On entire functions bounded on the real axis*..... 37 693
Ërikke [Jöricke], B. *Removable singularities of CR-functions*..... 36 340
Èrlikh, I. I. See Tarasov, S. P.
Eroshenkov, E. P. and Kal′menov, T. Sh. *On the completeness of root vectors of the Bitsadze-Samarskiĭ elliptic problem*..... 36 281
Evstigneev, I. V. *Measurable images of compact spaces, and selections of analytic sets*..... 37 399
Faĭnshteĭn, A. S. See Isaev, G. A.
Fedak, I. V. See Gorbachuk, M. L.
Fedorov, S. I. *The existence of a solution of a boundary value problem for a class of models of geometrically nonlinear elasticity for incompressible media*..... 36 370
Feĭzullaev, R. B. *On semigroups of transformations of fixed rank*..... 37 490
Filinkov, A. I. See Mel′nikova, I. V.
Fomenko, A. T. See Le Khong Van
Frolovichev, S. M. See Maslov, V. P.
Fryntov, A. E. *An extremal problem of potential theory*..... 37 754
Gabov, S. A. *On a method for reducing and investigating the equations of the dynamics of a stratified fluid*..... 37 674
Gabov, S. A., Orazov, B. B., and Sveshnikov, A. G. *On nonstationary oscillations of a vertical column of a stratified fluid, and their stabilization.* 36 151

Gabov, S. A. and Pletner, Yu. D. *On the Dirichlet problem for the equation of gravitational-gyroscopic waves* 36 43
Galkin, V. A. and Tupichev, V. A. *On solvability in the mean of a system of quasilinear conservation laws* 37 808
Gamkrelidze, R. V. See Agrachev, A. A.
Ganzburg, M. I. *On sharp constants for best harmonic approximations of functions of several variables* 37 142
Garadzhaeva, G. I. See Toraev, A.
Gasanov, A. I. *An inverse problem in nondestructive diagnostics of an elasto-plastic medium* 37 242
Gazizov, R. K. See Akhatov, I. Sh.
Gel'fand, I. M. See Alekseevskaya, T. V.
Gel'fand, I. M., Graev, M. I., and Zelevinskiĭ, A. V. *Holonomic systems of equations and series of hypergeometric type* 36 5
Gel'fand, I. M., Retakh, V. S., and Serganova, V. V. *Generalized Airy functions, Schubert cells, and Jordan groups* 37 8
Gel'fand, I. M., Zelevinskiĭ, A. V., and Kapranov, M. M. *Equations of hypergeometric type and Newton polyhedra* 37 678
Gera, M. *Some oscillation conditions for a linear third order differential equation* 36 277
Golichev, I. I. *Some iterative methods of solving problems for parabolic equations* 37 714
Goncharov, A. B. *Admissible families of k-dimensional submanifolds* 37 683
Gorbachuk, M. L. and Fedak, I. V. *The Cauchy problem for a differential-operator equation connected with oscillations of stratified fluids* 36 396
Gordeev, È. N. *Polynomial algorithms for computing the stability radius for two classes of choice problems* 36 557
Graev, M. I. See Gel'fand, I. M.
Grebennikov, A. I. *A spline-approximation method for solving some ill-posed problems* 37 102
Grigoryan, S. A. *On the distribution of values of generalized analytic functions* 36 379
Grishechkin, S. A. *On investigation of queueing systems with random choice discipline by branching process methods* 37 610
Grudskiĭ, S. M. *Factorization of u-periodic matrix-valued functions and problems with an infinite index* 36 180
Gudovich, N. N. and Terteryan, A. A. *On the stability of block difference schemes for parabolic equations* 36 489
Gurvich, V. A. *Extremal homogeneous hypergraphs and a hypercombinatorial function* 37 146
Gusarenko, S. A. *On a generalization of the notion of Volterra operator* 36 156
Gutlyanskiĭ, V. Ya. and Ryazanov, V. I. *On quasiconformal mappings with restrictions of integral type on the Lavrent'ev characteristic* 36 456
Ibragimov, F. I. See Ibragimov, I. I.
Ibragimov, I. I. and Ibragimov, F. I. *On multiple completeness in the sense of M. V. Keldysh for certain systems of entire functions* 36 317
Ibragimov, N. Kh. See Akhatov, I. Sh.
Il'in, V. P. and Sander, S. A. *The diagonal tie shift method for solving five-point difference equations* 37 369
Il'yasov, N. A. *On imbedding theorems for generalized Nikol'skiĭ-Besov spaces in L_p* 36 528

Isaev, G. A. and Faĭnshteĭn, A. S. *The Taylor spectrum and multiparameter spectral theory for systems of operators* 36 413
Ismatullaev, Sh. A. See Sirazhdinov, S. Kh.
Ivanenko, S. A. and Charakhch′yan, A. A. *An algorithm for constructing curvilinear meshes of convex quadrangles* 36 51
Ivanenko, V. I. and Mel′nik, V. S. *On optimal control of evolution equations with multivalued operators* 36 408
Ivanov, A. A. *Graphs of girth 5 and diagram geometries connected with the Petersen graph* 36 83
Ivochkina, N. M. *Solution of the Dirichlet problem for the equation of curvature of order m* 37 322
Ivriĭ, V. Ya. *Estimates for the number of negative eigenvalues of the Schrödinger operator with a strong magnetic field* 36 561
———. *Estimates of the spectrum of the Dirac operator* 36 599
Kachalov, V. I. and Lomov, S. A. *Smoothness of solutions of differential equations with respect to a singular parameter* 37 465
Kal′menov, T. Sh. See Eroshenkov, E. P.
Kamynin, L. I. *The interior derivative theorem for a second-order uniformly parabolic equation* 37 373
Kandelaki, N. P. See Vakhania, N. N.
Kanovich, M. I. *On a general method of constructing specific strongly independent propositions* 36 348
Kapitonov, B. V. *On the behavior, as $t \to \infty$, of solutions of an exterior boundary value problem with the Leontovich condition for the Maxwell system* 37 377
Kaplan, A. A. *Stable algorithms for the penalty method* 37 326
Kapranov, M. M. See Gel′fand, I. M.
Karapetyants, N. K. See Askhabov, S. N.
Karasev, M. V. See Vorob′ev, Yu. M.
Karatsuba, A. A. See Arkhipov, G. I.
Karlovich, Yu. I. *The local-trajectory method of studying invertibility in C^*-algebras of operators with discrete groups of shifts* 37 407
———. *The Noether theory of a class of operators of convolution type with a shift* 36 16
Kashchenko, S. A. *On quasinormal forms for parabolic equations with small diffusion* 37 510
Kaz′min, Yu. A. *On interpolation by means* 36 160
Kemer, A. R. *Solution of the finite basis problem for identities of associative algebras* 37 60
Kerimov, N. B. *Necessary conditions for the system of eigenfunctions and associated functions of a second order differential operator to be a basis in $L_2(G)$* 37 468
Khachiyan, L. G. See Tarasov, S. P.
Khapaev, M. M. See Mal′kov, K. V.
Kipriyanov, I. A. and Kulikov, A. A. *The Paley-Wiener-Schwartz theorem for the Fourier-Bessel transform* 37 13
Klimkin, V. M. *The uniform boundedness principle in generalized measure theory* 36 123
Kochubeĭ, A. N. *Parabolic pseudodifferential equations with homogeneous symbols* 36 493
Kolesnikov, E. V. See Akilov, G. P.

Kolmanovskiĭ, V. B. and Nosov, V. R. *Application of degenerate Lyapunov functions in stability theory* 37 195
Kolokol′tsov, V. N. and Maslov, V. P. *The Cauchy problem for the homogeneous Bellman equation* 36 326
———. *The general form of the endomorphisms in the space of continuous functions with values in a numerical commutative semiring (with the operation $\oplus = \max$)* 36 55
Kolyadin, V. L. and Kravchenko, V. F. *On the choice of subspaces in projection methods for solving operator equations* 36 353
Kononenko, A. F. and Chistyakov, Yu. E. *On equilibrium positional strategies in n-person differential games* 37 514
Konstantinov, G. N. *Sufficient optimality conditions for a minimax problem of controlling the ensemble of trajectories* 36 460
Konyukhova, N. B. *Existence and uniqueness of solutions of singular Cauchy problems for systems of nonlinear functional differential equations* 36 126
Korenevskiĭ, D. G. and Mitropol′skiĭ, Yu. A. *Matrix algebraic criteria and sufficient conditions for asymptotic stability and boundedness with probability one of solutions of linear singularly degenerate Itô stochastic equations* 36 603
Korobov, V. I. and Sklyar, G. M. *The exact solution of an n-dimensional time-optimal problem* 37 247
Korshunov, A. D. *On the cardinality and structure of some closed Post classes (of families of subsets of a finite set)* 36 88
Koshelev, A. I. *The smoothness of solutions of some nonlinear boundary value problems for equations with nondifferentiable coefficients* 37 18
Koshkin, M. A. See Lozhkin, S. A.
Koshmanenko, V. D. *Uniqueness of a singularly perturbed operator* 37 718
Kovalkov, A. V. *The structure and characteristic properties of variational splines satisfying constraints of inequality type* 36 321
Kravchenko, V. F. See Kolyadin, V. L.
Krichever, I. M. *A periodic problem for the Kadomtsev-Petviashvili equation* 37 157
Kruglikov, V. I. *Prime ends of spatial domains with variable boundaries* 36 565
Krushkal′, S. L. *The Kobayashi metric of Teichmüller spaces, quasiconformal continuation of univalent functions and reflection with respect to analytic curves* 37 722
Kucherenko, È. I. *Justification of the finite-element method for a boundary value problem of a system of nonlinear ordinary differential equations* . 36 185
———. *On the convergence of the Bogolyubov-Galërkin method for a boundary value problem for a nonlinear polyharmonic equation* 37 204
Kucherenko, V. V. and Berkun, V. B. *Investigation of the convergence of the multigrid method for stiff problems in domains of complex configuration* 36 608
Kuchko, L. P. *On the existence and uniqueness of solutions of multidimensional functional equations* 36 532
Kudryavtsev, L. D. *On existence and uniqueness of solutions of variational problems* 37 199
Kufarev, B. P. *K-continuity and limits of functions of class $\mathcal{L}_p^1$ at boundary points* 36 130
Kulikov, A. A. See Kipriyanov, I. A.
Kushitskiĭ, Ya. S. and Èĭdel′man, S. D. *On a multidimensional version of a problem of A. N. Tikhonov* 37 518
Kusraev, A. G. *On the geometry of Banach spaces with mixed norms* 37 774

———. See Akilov, G. P.
Kuz'min, Yu. V. *Homology of groups of the form F/N'* 36 247
Le Khong Van, *Absolutely minimal surfaces and calibrations on the orbits of the adjoint representation of classical Lie groups* 37 251
Le Khong Van and Fomenko, A. T. *Lagrangian manifolds and the Maslov index in the theory of minimal surfaces* 37 330
———. *Volumes of minimal surfaces and the curvature tensor of Riemannian manifolds* 37 817
Leonov, K. Ya. See Maksudov, F. G.
Leont'ev, V. K. See Burosh, G.
Lepin, A. Ya. See Virzhbitskiĭ, Ya. V.
Lepin, L. A. See Virzhbitskiĭ, Ya. V.
Lerner, M. E. *On the solvability of a boundary-value problem for hyperbolic equations in nonclassical domains* 37 696
Letichevskiĭ, A. A. *On the possibility of completing a search for invariant equalities in programs* 37 559
Levendorskiĭ, S. Z. *Coercivity of degenerate elliptic operators* 37 21
Liseĭkin, V. D. and Petrenko, V. E. *On numerical solution of nonlinear singularly-perturbed problems* 36 535
Liskovets, O. A. *External approximations for regularization of monotone variational inequalities* 36 220
Litsyn, S. N. See Bassalygo, L. A.
Lizorkin, P. I. and Nikol'skiĭ, S. M. *Symmetric averaged differences on the sphere* 36 251
Lomov, I. S. *Necessary and sufficient conditions for the existence of entire analytic solutions of singularly perturbed equations* 37 471
Lomov, S. A. See Kachalov, V. I.
Lozhkin, S. A. and Koshkin, M. A. *On the complexity of realizing some systems of Boolean functions by multipole switching circuits* 37 162
Lyubarskiĭ, Yu. I. *Dirichlet series in Smirnov spaces, and interpolation by entire functions of exponential type* 37 65
Lyubishkin, V. A. See Sadovnichiĭ, V. A.
Maergoĭz, L. S. *The indicator diagram of an entire function of several variables with nonnegative indicator* 37 413
Makanin, G. S. *On a presentation of an oriented knot* 37 522
Makhmudov, A. P. and Aliev, Z. S. *On a nonlinear analogue of the implicit method in the perturbation theory of an isolated eigenvalue* 36 189
Makienko, P. M. *Iterates of analytic functions in* $\mathbf{C}^*$ 36 418
Maksudov, F. G. and Aliev, F. A. *On a quasilinear hyperbolic equation* 37 821
Maksudov, F. G. and Leonov, K. Ya. *On an initial-boundary value problem for systems of equations of magneto-viscoelasticity and magneto-elasticity* 36 225
Malamud, M. M. *An estimate for differential operators in the uniform norm, and coercivity in Sobolev spaces* 37 25
———. See Derkach, V. A.
Mal'kov, K. V. and Khapaev, M. M. *On suppression of soliton-like solutions of shallow-water equations due to outstripping resistance* 37 777
Mamedov, Yu. A. *A decomposition formula in the case of a spectral problem with coefficients having poles* 37 784
———. See Rasulov, M. L.

Manstavichyus [Manstavičius], E. *An invariance principal for additive arithmetic functions* 37 259
Marchenko, I. I. and Shcherba, A. I. *On the growth of functions of finite lower order, meromorphic in a disk* 36 134
Marchuk, N. G. *Symmetric hyperbolic systems of second order equations* ... 37 207
Mardanov, M. Dzh. *Legendre necessary conditions in optimization problems with delays in the controls* 36 539
———. *The maximum principle in systems with delays of neutral type and phase constraints* 36 498
Markosyan, A. S. See Burosh, G.
Martynyuk, A. A. *A stochastic matrix-valued Lyapunov function and its application* 37 334
Maslov, V. P. See Kolokol'tsov, V. N.
Maslov, V. P., Frolovichev, S. M., and Chernykh, S. I. *Precise asymptotics of large deviations in boundary value problems for diffusion processes* .. 36 255
Matusov, I. B. and Statnikov, R. B. *Approximation and vector optimization of large systems* 36 284
Matveev, A. F. *Approximate solution of a linear singular integral equation on the interval* [−1, 1] 37 69
Maz'ya, V. G. and Solov'ev, A. A. *Solvability of an integral equation for the Dirichlet problem in a plane domain with cusps on the boundary* 37 255
Mednykh, A. D. See Derevnin, D. A.
Mel'nik, V. S. See Ivanenko, V. I.
Mel'nikova, I. V. and Filinkov, A. I. *The connection between well-posedness of the Cauchy problem for an equation and for a system in a Banach space* 37 647
Merkur'ev, A. S. *The group SK_2 for quaternion algebras* 37 118
Meshchaninov, D. G. *Some conditions for the representability of functions in P_k by polynomials modulo k* 37 338
